Professional Summary

Detail-oriented Information Technology student with strong analytical and problem-solving skills. Skilled in Python, SQL, and data analysis with hands-on experience in full-stack development and academic projects. Strong foundation in data structures, algorithms, and database management. Eager to apply technical and analytical knowledge in data science and business intelligence projects.

Academic Qualifications

Bachelor of Engineering in Information Technology

Zeal College of Engineering and Research, Narhe, Pune | 2023-2026 | Cumulative CGPA: 9.24/10

Diploma in Computer Engineering

Shri Hiralal Hastimal Polytechnic, Chandwad, DIST-Nashik. | 2021-2023 | Percentage: 84.11%

HSC

Savitribai Phule Secondary & Mahatma Phule Junior College commerce & science kokane | 2019-2020 | Percentage: 78.92%

SSC

Shree Neminath Jain Secondary & Higher Secondary School, Chandwad. | 2017-2018 | Percentage: 81.40%

Technical Skills

- Programming Languages: Python, SQL, Java, JavaScript
 - Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Excel
 - Web Technologies: React.js, HTML5, CSS, Bootstrap
 - Databases: MySQL, MongoDB
 - Developer Tools: VS Code, PyCharm, IntelliJ, Eclipse
-

Projects

Campus Surveillance System using OpenCV W | Python, HTML, CSS, MySQL March-2024

- Developed a campus surveillance system to enhance safety and reduce crime by improving visibility into daily operations. Optimized data management through well-organized storage and retrieval, ensuring higher accuracy and reliability in system operations.
- Implemented a structured approach to workflow, enabling efficient organization and seamless information access. Enhanced the system's performance by ensuring proper data handling, contributing to improved decision-making and security measures. Achieved 95% accuracy, enhancing quality control.

Recipe Sharing Platform. W | React.js, Node.js, Express.js, MongoDB, JavaScript, HTML Feb-2025

- Analyzed system requirements for a Campus Surveillance System; contributed to data flow design and documentation, ensuring optimized operations.
- Designed and developed a Recipe Sharing Platform using the MERN stack, enabling users to share and discover recipes seamlessly.
- Implemented a robust backend for efficient data management, ensuring smooth user interactions and optimized performance.

FinTrack – Personal Finance Manager | Java, JavaFX, SpringBoot, MySQL June-2025

- Developed a Java-based expense management application to record, categorize, and track daily spending, providing real-time total and monthly expense summaries.
- Implemented object-oriented programming (OOP) concepts with file handling to store and retrieve expense history, improving personal finance tracking efficiency.

Internships

Internship at EY GDS Pune | March - 2025

- Developed data-driven Recipe Sharing Platform using React & Express.js.
 - Implemented user authentication and database management for secure access.
 - Collaborated with team for requirements and created structured documentation.
-

Achievements / Certificates

- Java-Spring boot - Udemy
 - C-Sharp - Udemy
 - Full Stack Development - Udemy
-

Extra-Curricular Activities

- Taught Full Stack Web Development Data Structures Algorithms in online mode.
 - Served as an NCC Cadet, developing leadership, discipline, and teamwork skills.
-

Strengths

- Problem-Solving | Analytical Thinking | Data Handling | Communication & Collaboration | Teamwork
-

Hobbies

- Solving Algorithmic Problems | Playing Carrom | Participating in Coding Competitions
-
